**SPRING
1925**

GAINESVILLE — FLORIDA

HAPPY NEW YEAR!

I hope this is the beginning of a year that will be a happy and a prosperous one for you. Last spring was the worst for the truckers that I have ever seen. Many have given up trucking because of such heavy losses last year, so here's hoping that all who stay in the business will make some money this year.

Very truly yours,

H. J. BABERS, Proprietor.

Gainesville, January, 1925.

NOTE THESE INSTRUCTIONS

Our terms are cash with order. We do not care to ship C. O. D. unless a 20% remittance comes with the order. Remit by money order, check or stamps.

Always state how you want your order shipped, whether by mail, freight, or express.

PARCEL POST is cheaper on orders weighing 20 lbs. or less and about the same on 40 or 50 lbs. and the package is brought right to your mail box if on a route. If within 300 miles of Gainesville, add 5 to the number of pounds your order will weigh to get the amount of postage in cents; viz.: if your order amounts to 10 lbs., add 5 and it gives you 15c; if 19 lbs., add 5 and it gives 24c, and so on. This applies on any weight. For quarts, 6c for first quart and 2c for each additional quart; peck 20c.

NO GUARANTEE

It is impractical to guarantee seeds, as under improper care the best seeds will fail. For this reason, we give no warranty, expressed or implied, and will not in any way be responsible for the crop.

WE TEST OUR SEED

As soon as they are received at our store we test our seed in order to be certain they are good. If our testing shows them bad, we can at once return them.

IMPORTANT

Ask for prices on large quantities. It is now the last days of December when we are preparing this catalog and it is impossible to put in prices for large quantities that would be good throughout the spring season. They might go down, or up.

WHAT AND WHEN TO PLANT IN FLORIDA

JANUARY.—Beets, Cabbage, Chinese Cabbage, Carrots, Collards, Egg Plant, Pepper, Kale, Lettuce, Mustard, Onion (sets and plants), Parsnip, Parsley, English Peas, Radish, Rape, Irish Potatoes, Spinach, Tomato, Turnip, Rutabaga, Rye and Oats.

FEBRUARY.—All the above, and add Beans, Cucumbers, Sweet Corn, Field Corn, Millet, Sorghum, Watermelon, Cantaloupe, Squash.

MARCH.—Pole Beans, and Bush Beans of all kinds, Velvet Beans, Cantaloupes, Chicken Corn, Chufas, Egg Plant, Pepper, Sweet Corn, Field Corn, Pop Corn, Cotton, Cucumbers, Goobers, Irish Potatoes, Radish, Millet, Okra, Peanuts, Pumpkins, Rice, Sorghum, Squash, Sunflower, Tomato, Turnip, Cowpeas, Black Eye Peas, Watermelon and Sudan Grass.

APRIL.—Same as for March.

MAY.—Some kinds of Bush and Pole Beans, Butter or Lima Beans, Beggarweed, Sudan Grass, Corn, Chufas, Goobers, Velvet Beans, Millet, Cowpeas, B. E. Peas, Peanuts, Pumpkins, Rice, Radish, Sorghum, Sunflower, Okra, Chicken Corn, and June Corn.

JUNE.—Same as May.

JULY.—Beggarweed, Celery, Chufas, Egg Plant, Tomato, Okra, Pepper, Millet, Cowpeas, Spanish Peanuts, Sorghum, and Velvet Beans.

AUGUST.—Brussels Sprouts, Cabbage, Cucumber, Cauliflower, Celery, Collard, Kale, Lettuce, Mustard, Okra, Radish, Squash, Tomato, Turnip, Rutabaga, Cowpeas, and Irish Potatoes.

SEPTEMBER.—Same as August, and add Beans, Beets, Carrots, Onion Seed, Onion Sets, Parsnips, Parsley, English Peas, Radish, Romaine, Spinach, Rape, Rye, Oats and Barley.

OCTOBER.—Bush Beans, Barley, Beet, Broccoli, Brussels Sprouts, Cabbage, Carrot, Cauliflower, Celery, Collard, Kale, Lettuce, Mustard, Onion Seed and Sets, Parsnip, Parsley, English Peas, McNeil Peas, Radish, Romaine, Spinach, Turnip, Rutabaga, Rye, Rape, Barley, Wheat and Oats.

NOVEMBER-DECEMBER.—Same as for October except leave off the beans. In the southern part of the state, the January items are also planted in December.

SPECIAL GARDEN SEED COLLECTION

Up to February 10th You Can
Send us only 50c for this \$1.20 Collection
of First Class Garden Seed

(Will not be sold this way after Feb. 10th)

1 pkt. Nutting's Gem Beet.....	.10	1 pkt. Early Florida Turnip.....	.10

GARDEN BEANS

(Not postpaid)

See inside cover page to find out what parcel post charges will be.

BUNCH VARIETIES

Green Podded

SEMINOLE EARLY. (See back cover.) Our most popular bean for home gardens, and for shipping to markets where semi-flat pods are taken. First picking in 46 days in our trial plot. A large, straight, smooth, nearly-flat-podded, stringless

green bean. Don't fail to plant some of them in your garden. Truckers are beginning to use this bean and find it one of the finest stringless beans. One fine feature is that the pods are large and are borne thick on rank upright bushes, making them the easiest green bean to pick. Pkt. 10c; pt. 35c; qt. 60c; pk. \$4.00. Add postage.

TENNESSEE GREEN POD. (Also known as Brown Bunch and Henderson Bean.) A large, rather rough, flatpodded variety, maturing the first picking in 43 days. Bushes rather low growing. Not as productive as Seminole Early, but largely planted in some sections. Pkt. 10c; pt. 35c; qt. 60c; pk. \$4.00. Add postage.

EXTRA EARLY REFUGEE. Very much like the Thousand to One, but is earlier. Resists all kinds of bad weather and is a favorite for both spring and fall planting. Pkt. 10c; pt. 25c; qt. 50c; pk. \$3.00. Add postage.

Ask for SPECIAL PRICES on larger quantities.

BURPEE'S STRINGLESS GREEN POD. Quite hardy, early, and the pods are tender, stringless, and of the highest quality. Pods fleshy, full and round. First picking in 48 days. Pkt. 10c; pt. 35c; qt. 60c; pk. \$3.75. Add postage.

GIANT STRINGLESS GREEN POD. Quite early; large green pods five to six inches in length, perfectly round, brittle, fleshy, and entirely stringless. Pkt. 10c; pt. 35c; qt. 60c; pk. \$4.00. Add postage.

BLACK VALENTINE. Too well known for us to set out any of its merits. A very popular green pod bean. Pkt. 10c; pt. 25c; qt. 50c; pk. \$3.00; bu. \$11.00; 10 bus. \$105.00, not prepaid.

RED SPECKLED VALENTINE. A well known and popular variety, tho most growers prefer the Black for shipping. Pkt. 10c; pt. 25c; qt. 50c; pk. \$3.00. Add postage.

To figure POSTAGE, see inside front cover.

LONGFELLOW. One of the earliest; hardy, prolific; pods round and of attractive appearance. Pkt. 10c; pt. 25c; qt. 50c; pk. \$3.25. Add postage.

1000 TO 1 REFUGEE. The heaviest bearing bean, tho later by about ten days than the Extra Early Refugee; its heavy foliage protects the beans underneath in case of frost, and this makes it a very desirable fall bean. Pkt. 10c; pt. 25c; qt. 50c; pk. \$3.25. Add postage.

BOUNTIFUL. A splendid stringless early bean. Pods large and flat and of good flavor. Pkt. 10c; pt. 35c; qt. 60c; pk. \$4.10. Add postage.

Ask for SPECIAL PRICES on larger quantities.

WAX OR YELLOW PODDED

WARDWELL'S KIDNEY WAX. Early and an abundant yielder; the pods are long, straight, a rich yellow, and stringless. Pkt. 10c; pt. 25c; qt. 50c; pk. \$3.50. Add postage.

DAVIS WHITE WAX. The favorite wax bean in this section; pods are long, straight, waxy yellow and stringless while young. Pkt. 10c; pt. 40c; qt. 75c; pk. \$4.00; bu. \$15.00. Add postage.

BLACK WAX. An old favorite. Small seed and meaty pods. Good flavor. Pkt. 10c; pt. 25c; qt. 50c; pk. \$3.00. Add postage.

LIMA OR BUTTER BEANS

FLORIDA SPECKLED BUSH LIMA. A very heavy bearer and a good bean. Cooks up darker than the white ones. Pkt. 10c; pt. 25c; qt. 50c. Add postage.

HENDERSON'S BUSH LIMA. Small white seed, and pods are small but probably the most prolific of all the limas. Pkt. 10c; pt. 25c; qt. 50c; pk. \$3.00. Add postage.

FORDHOOK BUSH LIMA. A bean that you will like. Very large round-flat beans of a greenish color like an English pea. Very rich and mellow when cooked. Require very rich ground. The trouble we have found with them in Florida is that the beans do not fill out well in the pods, being 1 to 3 beans only in a pod. Pkt. 15c; pt. 40c; qt. 75c. Add postage.

POLE

OLD HOMESTEAD OR KENTUCKY WONDER. One of the best known running snap beans. Pods very long and meaty. Pkt. 10c; pt. 25c; qt. 50c; pk. \$3.00. Add postage.

McCASLAN. A dandy pole bean in every respect. White-seeded which makes them very good to eat dry like Navy Beans. Pkt. 10c; pt. 25c; qt. 50c. Add postage.

OLD TIME FLORIDA SIEVA (or pole Lima). A very prolific and heavy bearing bean for Florida. This is the old time "Sivy" bean our grandmothers planted in the garden a long time ago. Seed black and white speckled. Pkt. 10c; pt. 25c; qt. 50c. Add postage.

SMALL WHITE LIMA OR SIEVA. One of the best of the pole limas. In growth is much the same as the Old Time Florida and the seed is the same size, but it does not bear as long. Pkt. 10c; pt. 25c; qt. 50c. Add postage.

LARGE WHITE POLE LIMA. A good grower and splendid quality. Pkt. 10c; pt. 30c; qt. 55c. Add postage.

BEETS

(Postpaid)

Sow in drills at the rate of 5 to 7 lbs. per acre

SEMINOLE SPECIAL. Slightly flattened, very early and finely flavored. Color a pretty red with zones of lighter red. Absolutely the prettiest beet we have seen. Smooth, uniform shape, and clean-cut small tap root. One of the finest beets to eat, and also a good one for shipping. Pkt. 5c; oz. 10c; $\frac{1}{4}$ lb. 30c; lb. \$1.00, postpaid.

NUTTING'S GEM. (Light top). Decidedly the most popular among the Florida market gardeners; early and well shaped. The almost-green tops carry to market better than the red tops and will also stand more cold. Tender and sweet but does not cook up real red. Pkt. 5c; oz. 10c; $\frac{1}{4}$ lb. 25c; lb. 85c; 5 lbs. at 75c, postpaid.

Seminole Special

EARLY LENTZ. Makes a light red beet which is tender and sweet at all stages; green leaves with red stems and veins is a characteristic of this beet. Ships long distances well, and withstands hard cold. Pkt. 5c; oz. 10c; $\frac{1}{4}$ lb. 25c; lb. 85c; 5 lbs. at 75c, postpaid.

EARLY ECLIPSE. A very fine blood red globe-shaped beet. Pkt. 5c; oz. 10c; $\frac{1}{4}$ lb. 30c; lb. \$1.00, postpaid.

DETROIT DARK RED. A fine home garden variety; has good flavor and a very dark red color; slightly oblong shape. Pkt. 5c; oz. 10c; $\frac{1}{4}$ lb. 30c; lb. \$1.00, postpaid.

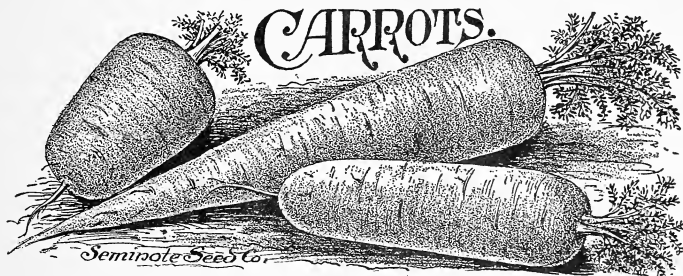

LONG SMOOTH BLOOD. A long-rooted blood red beet of fine quality; larger and later than the globe varieties. A good table beet. Pkt. 5c; oz. 10c; $\frac{1}{4}$ lb. 30c; lb. \$1.00, prepaidd.

CROSBY'S EARLY EGYPTIAN. An extra early medium-sized round beet; bright red color and of very fine quality. A fine variety for home garden or shipping to nearby markets. Pkt. 5c; oz. 10c; $\frac{1}{4}$ lb. 25c; lb. 85c, postpaid.

SWISS CHARD. A beet used only for the tops, which make very fine greens. Does not make a beet. Pkt. 5c; oz. 10c; $\frac{1}{4}$ lb. 30c, postpaid.

BRUSSELS SPROUTS

IMPROVED HALF DWARF. Grows something like collards but tiny little heads grow around the main stalk. These are pulled off and eaten or sold. Pkt. 5c; oz. 30c.

EARLY SHORT HORN. Flesh bright orange, crisp, tender and sweet; excellent for the table and early market. Mature quicker than the larger ones. Pkt. 5c; oz. 10c; $\frac{1}{4}$ lb. 25c; lb. 75c, postpaid.

CHANTENAY. Probably the favorite half long carrot; smaller than Danvers. Has rich orange color. Pkt. 5c; oz. 10c; $\frac{1}{4}$ lb. 25c; lb. 75c, postpaid.

DANVERS HALF LONG. Its name describes its shape; a handsome bright orange-red color and very productive. A good market variety. Pkt. 5c; oz. 10c; $\frac{1}{4}$ lb. 25c; lb. 75c, postpaid.

IMPROVED LONG ORANGE. An old standard variety. Long roots of a deep golden color. A heavy cropper, and a fine table or shipping carrot. Pkt. 5c; oz. 10c; $\frac{1}{4}$ lb. 25c; lb. 75c, postpaid.

CABBAGE

(Postpaid)

One ounce of seed produces about 1,800 plants

Early Jersey Wakefield

EARLY JERSEY WAKEFIELD. This is the earliest cabbage; a small sharp head, of fine flavor and therefore fine for the table; popular with growers who want a cabbage to ship in lettuce baskets. Pkts. 5c and 10c; oz. 25c; $\frac{1}{4}$ lb. 75c; lb. \$2.50, postpaid.

LARGE CHARLESTON WAKEFIELD.

Larger than the Jersey and later by about two weeks, but has all its other good points; one of the most popular market varieties. Our strain of this seed is the very best, and growers know it is one of the hardest to get a pure strain of. Pkts. 5c and 10c; oz. 25c; $\frac{1}{4}$ lb. 75c; lb. \$2.50.

EARLY FLAT DUTCH. One of the most popular of the round-flat head varieties and planted extensively for market. Pkts. 5c and 10c; oz. 20c; $\frac{1}{4}$ lb. 65c; lb. \$2.25, postpaid.

SEMINOLE PERFECTION. The cabbage you have been looking for; perfect because it is round headed and yet as early as the Charleston Wakefield. You will do well to give this a trial. Pkt. 10c; oz. 25c; $\frac{1}{4}$ lb. 75c; lb. \$2.50, postpaid.

HENDERSON'S EARLY SUMMER. A medium large sure header of round-flat shape. A favorite with shippers. Pkts. 5c and 10c; oz. 25c; $\frac{1}{4}$ lb. 75c; lb. \$2.50, postpaid.

Seminole Perfection

SAVOY. A kind of spinach cabbage. Cooks up "soft" and has a nice flavor. The leaves are "crinkly." Pkts. 5c and 10c; oz. 25c.

OTHER VARIETIES of cabbage we have, which are well known, are Surehead, Large Late Drumhead, Early Drumhead. Prices: Pkts. 5c and 10c; oz. 25c; $\frac{1}{4}$ lb. 90c, postpaid.

COLLARDS

GEORGIA WHITE STEM. An upright-growing collard with light green stems. Pkt. 5c; oz. 15c; ¼ lb. 40c; lb. \$1.15, postpaid.

CABBAGE COLLARD and N. C. SHORT STEM COLLARD at same prices, but the White Stem is the one most used.

CAULIFLOWER

Plant seed in a hot bed and transplant like cabbage

EARLY SNOWBALL. An early maturing white-heading variety. Well known and still the most popular. Pkts. 10c, 15c, 20c and 25c; ½ oz. \$1.25; oz. \$2.25, postpaid.

CELERY

GOLDEN SELF BLANCHING. An old standard variety. Pkts. 10c, 15c, 20c and 25c; ½ oz. 90c; oz. \$1.50.

CUCUMBERS

(Postpaid)

HENDERSON WHITE SPINE. One of the best dark green cukes. We have sold the same strain of this variety here for a number of years, and we have seen cukes produced from them that were just as fine as any other strain or variety. Pkt. 5c; oz. 10c; ¼ lb. 35c; lb. \$1.25; 10 lbs. for \$11.50, postpaid.

KIRBY'S STAYS GREEN. Our stock is in the original pound packages, sealed under the originator's trade mark. A dark green early variety, good shipper and a heavy bearer. Lb. \$1.50, prepaid. 10 lbs. or more at \$1.25 a lb., postpaid.

KLONDIKE. Dark green color which makes it a fine market variety. First class seed. Pkt. 5c; oz. 10c; ¼ lb. 35c; lb. \$1.25; 10 lbs. at \$1.15.

EARLY FORTUNE. One of the best; very early and of a fine green color. Considered by many the best market cuke. Pkt. 5c; oz. 10c; ¼ lb. 35c, postpaid.

LONG GREEN. The old fashioned "long green." Not used for shipping. Pkt. 5c; oz. 10c; ¼ lb. 35c; lb. \$1.25, postpaid.

FLORIDA PICKLING. Very early, but not large. Grows in clusters and used almost exclusively for pickling. Pkt. 5c; oz. 10c; ¼ lb. 30c, postpaid.

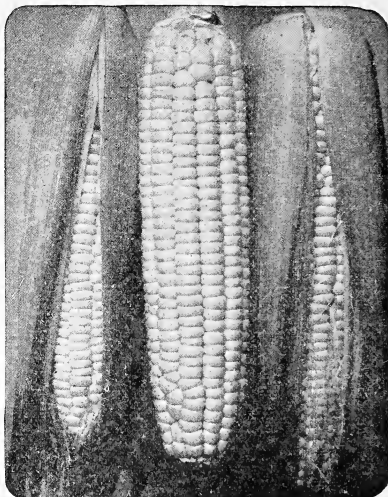

Kirby's Stays Green Cucumber

SWEET CORN

(Not postpaid)

SEMINOLE DWARF. An extremely early white corn. Comes in with Golden Bantam. Fine flavor, and nice well-filled ears. Pkt. 10c; qt. 35c; pk. \$2.00. Add postage.

Seminole Dwarf

EARLY FLORIDA MAMMOTH.

The ears are large and long with 10 to 12 rows. Kernels are pure white, sweet and tender. It is very prolific and sells well. Comes into bearing with medium early sorts and larger than most of them. Desirable for both market and family. Pkt. 10c; qt. 35c; pk. \$2.00. Add postage.

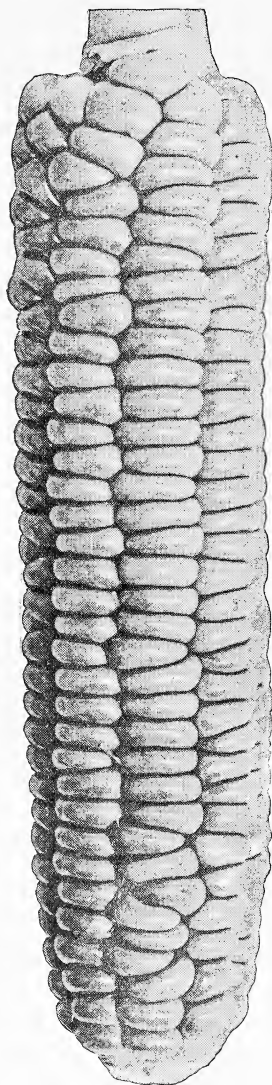

COUNTRY GENTLEMAN. Long shoe-peg kernels set irregularly on the cob. It is one of the leading varieties. A heavy bearer, producing sometimes 3 and 4 ears on the stalk. Good for home garden or shipping. Pkt. 10c; qt. 60c; pk. \$3.75. Add postage.

STOWELL'S EVERGREEN. Decidedly the leading market variety in this section. Stalks grow strong and produce two large ears of excellent quality. The grains grow in even rows on the cob, and stay in the milk a long while before hardening. Pkt. 10c; qt. 60c; pk. \$3.50; bu. \$12.00. Add postage.

Ask for SPECIAL PRICES on larger quantities.

GOLDEN BANTAM. Here's one of the earliest corns in cultivation. If you want to eat corn early, plant this one. Ears are not large, but it cooks very mellow and has a delicious flavor. You will like it. Pkt. 10c; qt. 35c. Add postage.

GOLDEN GIANT. Larger than the Bantam and quality said to be just as good. Pkt. 10c; qt. 35c. Add postage.

Golden Bantam

ADAM'S EARLY. Not a sugar corn nor a field corn, but is earlier than Stowell's Evergreen or Country Gentleman. Ears short. A fine table corn; in fact, claimed by many to be equally as good as the sweet corns. Pkt. 10c; qt. 35c; ½ pk. \$1.10; pk. \$2.00. Add postage.

SHIPPING CORN

These extra early field-type corns are used by many to ship as green corn.

WHITE BEAUTY. (90 to 100 days.) Introduced here by us last season. Comes to shipping stage at same time as Snowflake. Stalks medium size, but bears nice long ears well filled out. Qt. 20c; pk. \$1.10; ½ bu. \$2.00; bu. \$3.75. Add postage.

SNOWFLAKE. (90 to 100 days.) An extra early white corn used extensively for shipping in the green stage. Qt. 20c; pk. \$1.10; ½ bu. \$2.00; bu. \$3.75. Add postage.

ENDIVE

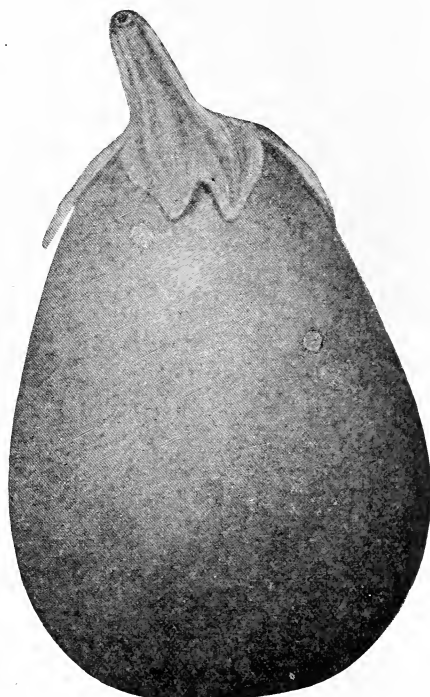

LARGE GREEN CURLED. Something like lettuce. Pkt. 5c; oz. 15c.

EGG PLANT

(Postpaid)

FLORIDA HIGH BUSH. This famous eggplant originated right in this section of Florida, and seems to meet with favor wherever planted. As the name implies, it is a high-growing variety and holds the fruit clear of the ground. It is very hardy, resisting all kinds of bad weather, and the fruit carries to market much better than other varieties. Pkt. 10c; oz. 35c; ¼ lb. \$1.00; lb. \$3.50, postpaid.

BLACK BEAUTY. This is a handsome dark colored eggplant, maturing a few days quicker than Florida High Bush. Pkt. 10c; oz. 40c; ¼ lb. \$1.40.

Florida High Bush

KALE

TALL SCOTCH CURLED. This grows 2 or 3 feet high with large plume-like leaves. Holds the leaves up out of the sand. Pkt. 5c; oz. 15c, postpaid.

KOHL RABI

EARLY WHITE VIENNA. Something like a turnip, only grows on top of plant instead of in the ground. Pkt. 5c; oz. 15c.

LETTUCE

(Postpaid)

BIG BOSTON. This is the standard market variety. Makes a large, round, firm head and is a first class shipper. Our seed is the best. Pkt. 5c; oz. 15c; $\frac{1}{4}$ lb. 45c; lb. \$1.50, postpaid.

DARK GREEN ICEBERG. A large crisp head lettuce of unusually fine flavor. Inside of head bleaches almost white and outside leaves dark green. You will find this the best you have ever eaten. Ships long distances but gets broken and bruised easily. We have seen this lettuce on the Gainesville market that was packed in Colorado, and after traveling that far it was still the best we have ever eaten. Pkts. 5c and 10c; oz. 25c; $\frac{1}{4}$ lb. 85c; lb. \$2.75, postpaid.

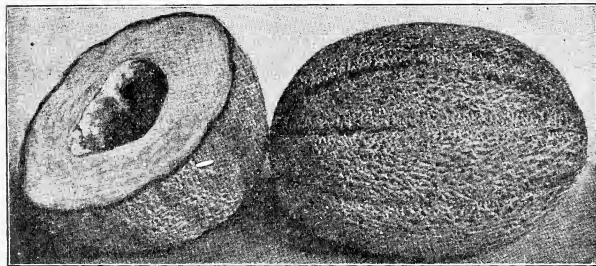

LIGHT GREEN ICEBERG. Another crisp head lettuce of fine flavor. Very much like the other but of light green color. Not grown as extensively as the Dark Green. Pkts. 5c and 10c; oz. 25c; $\frac{1}{4}$ lb. 75c; lb. \$2.75, postpaid.

PRIZEHEAD. A loose-heading but very crisp sweet variety. Pkt. 5c; oz. 25c, postpaid.

PARIS WHITE COS. (Celery Lettuce or Romaine). This is an upright-growing lettuce and can be set close together. For the table many prefer it to the regular lettuce. Pkt. 5c; oz. 25c; $\frac{1}{4}$ lb. 75c; lb. \$2.50, postpaid.

CANTALOUPE (Muskmelon)

GENUINE ROCKY FORD (see cut). Our strain of this well known cantaloupe is the very best, coming from one of the largest cantaloupe seed growers in the country. Pkt. 5c; oz. 15c; $\frac{1}{4}$ lb. 30c; lb. \$1.00; 5 lbs. at 90c, postpaid.

Genuine Rocky Ford Cantaloupe

is the newest cantaloupe and one of the best. A nice melon to eat and a good shipper. Solid netting. Seed cavity very small and walls of meat very thick. Matures in about 75 days. Pkts. 5c and 10c; oz. 15c; $\frac{1}{4}$ lb. 40c; lb. \$1.25, postpaid.

EDEN GEM. This is a solid netted melon, and has for years been popular for a shipper. The meat is thick, light green in color, and excellent flavor. Pkt. 5c; oz. 10c; $\frac{1}{4}$ lb. 35c; lb. \$1.25, postpaid.

HONEY DEW. A medium sized smooth rind cantaloupe; almost white when thoroughly ripe. Quite different in taste from the ordinary cantaloupe, being sweeter and of a little different flavor. Pkt. 5c; oz. 10c; $\frac{1}{4}$ lb. 40c, postpaid.

NIXON, OR OLD FASHIONED MUSKMELON. Matures 10 days later than Rocky Ford but several times larger. Round in shape and has netted rind. Flesh

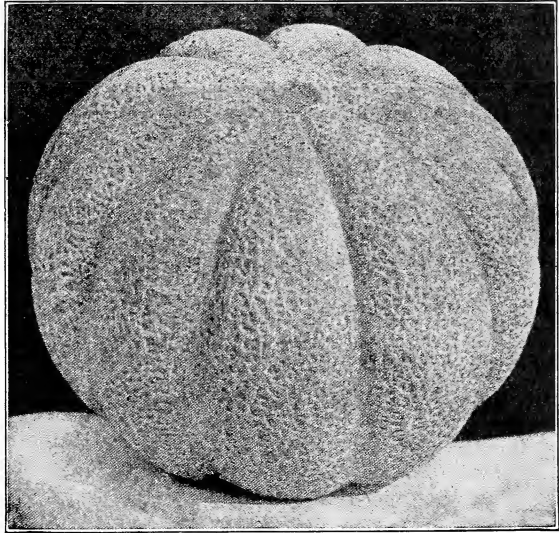

Mr. Alston planted several pounds of our Genuine Rocky Ford Cantaloupe seed last spring and told us they produced the finest crop he had ever seen,—prolific, nice size, and the finest quality.

POLLOCK'S 10-25 (salmon tinted). This

greenish yellow, and just as fine to eat as the smaller cantaloupes, and when you cut one you have enough for the family. These melons sell better on the local market than any other. Pkt. 10c; oz. 25c; $\frac{1}{4}$ lb. 75c; lb. \$2.00, postpaid.

SEMINOLE GIANT.

The largest cantaloupe we know of that carries such a fine taste. Generally hardier and a surer cropper than the small cantaloupes, but the texture of the meat and the flavor is much the same. Probably too big to ship well, but is a quick seller in local markets. At least give this a trial in your garden. Pkt. 10c; oz. 20c; $\frac{1}{4}$ lb. 65c, postpaid.

Seminole Giant Cantaloupe

MUSTARD

FLORIDA BROAD LEAF. For years we tried to buy this mustard from the northern and western seed growers, but each time would get the wrong kind.

Then we tried to get it grown in Florida but failed at that. Finally we got a small quantity of pure seed from an old negro and we sent a sample of about a teaspoonful to a seed grower to let them know just what we wanted. From that sample has sprung our supply. We have cataloged Florida Broadleaf before but we found at times it was not pure. We offer you now the genuine. The picture we have does not do the mustard justice but is the best we could get in time for our spring catalog. The mustard was wilted when the picture was taken. The large leaves may be pulled from the bottom and the plant left to continue growing. Sweet and tender.

Florida Broad Leaf

Pkt. 5c; oz. 10c; $\frac{1}{4}$ lb. 30c; $\frac{1}{2}$ lb. 50c; lb. 90c, postpaid.

GIANT CURLED. Old fashioned curly mustard. Pkt. 5c; oz. 10c; $\frac{1}{4}$ lb. 30c; lb. 90c, postpaid.

CHINESE OR SMOOTH. A smooth leaf but not so large as the Seminole Broadleaf. A splendid mustard. Pkt. 5c; oz. 10c; $\frac{1}{4}$ lb. 30c; lb. 90c, postpaid.

WATERMELON

One pound plants and re-plants an acre

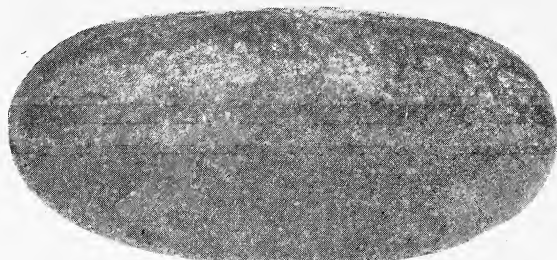

TOM WATSON. (Red hearted.) This is still the leader for a shipping melon. Our seed are grown for us on contract from seed that have been bred red-hearted, and we believe they will produce red-hearted melons. Pkt. 5c; oz. 10c; lb. 90c; 5 lbs. at 85c; 10 lbs. or more at 80c, postpaid.

THURMOND GREY. A large shipping melon, considerably darker gray than the Irish Grey. A splendid melon but 12 to 14 days later in ripening than Tom Watson. Pkt. 5c; oz. 10c; lb. 90c; 10 lbs. or more at 75c, postpaid.

IRISH GREY. Shape and size same as Tom Watson. Rind is tough like a citron but is thin and the melon is fine to eat. Ripens a few days later than Tom Watson.

A good shipper and good keeper after being picked. Light grey color. Our seed are from the originator. Pkt. 5c; oz. 10c; lb. 90c; 10 lbs. at 75c, postpaid.

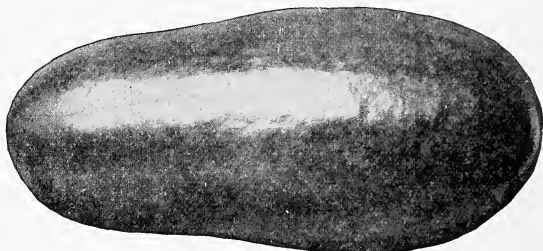

FLORIDA FAVORITE. As its name implies, it is one of the favorites - for home market or home consumption. A poor shipper, but sweet and crisp. Pkt. 5c; oz. 10c; 1/4 lb. 25c; lb. 90c, postpaid; 5 lbs. at 85c; 10 lbs. at 75c, prepaid.

Florida Favorite

KLECKLY SWEET (Monte Cristo). Equally as good as the Florida Favorite. Flesh deep red, sweet and crisp. Pkt. 5c; oz. 10c; 1/4 lb. 25c; lb. 90c, prepaid.

GEORGIA RATTLE-SNAKE. A favorite with many, but not as popular as the other three above. Pkt. 5c; oz. 10c; 1/4 lb. 25c; lb. 90c, postpaid.

Kleckly Sweet

ONIONS

(Postpaid)

As yet no seed of the Bermuda Onion has been grown in any section to equal that grown on Teneriffe Island, off the coast of Spain. We handle only the seed from that island grown by one of the oldest and most reliable onion seed growers. Don't force onions to grow too large. They won't keep as well.

YELLOW BERMUDA (commonly called White Bermuda). This onion is well known all over the South. A flat straw-colored onion with white meat. Decidedly the most popular market onion in the South. Pkts. 5c and 10c; oz. 25c; $\frac{1}{4}$ lb. 90c; lb. \$2.90, postpaid.

RED BERMUDA. Looks very much the same as the Yellow, but is nearer red and the flesh is slightly pink and is stronger (hotter) than the Yellow. Some claim for it that it is a better keeper than the Yellow. Prices the same as the Yellow.

CRYSTAL WAX BERMUDA. This is the real pure white Bermuda. Very mild and sweet, and can be eaten like an apple. There is usually a ready sale for this onion, but it is very hard to keep. Pkt. 10c; oz. 40c; $\frac{1}{4}$ lb. \$1.25; lb. \$4.00, prepaid.

GENUINE CREOLE ONION. The home of this onion is Louisiana, where it is grown very extensively. It is a good cropper and a good keeper, but is strong and fiery, and we would not recommend it if you want a mild onion. A yellow skin flat onion. This onion will keep for months. Pkt. 10c; oz. 45c; $\frac{1}{4}$ lb. \$1.25; lb. \$4.50, prepaid.

ONION SETS

(Not postpaid—Add postage)

Note: Bermuda onion sets are so hard to keep that we can't find any for the spring trade. Can furnish you Bermuda Onion plants if desired.

SILVERSKIN. Pint 20c; qt. 30c; pk. \$2.00, add postage.

YELLOW DANVERS. Pint 20c; qt. 30c; pk. \$2.00, add postage.

OKRA

(Postpaid)

SEMINOLE MARKET. Introduced by us here in 1923. Does not grow so tall and "shanky" as the Mammoth Green but branches out more. The pods are long and large and keep fresh long after being cut, so that one cutting may be kept till

Okra

the next is ready if desired to make a larger shipment. One of the finest varieties for home use and particularly fine for shipping long distances. Pkt. 5c; oz. 10c; ¼ lb. 30c; ½ lb. 50c; lb. 75c; 5 lbs. \$3.25; 10 lbs. \$6.00, postpaid.

ISLAND GROVE OKRA. A variety planted extensively for shipping. Carries long distances without shrinking or withering. Pkt. 5c; oz. 10c; ¼ lb. 30c; lb. 70c; 5 lbs. \$3.00, postpaid.

LONG GREEN (Perkins' Mammoth Green). An old standard variety. Starts bearing young and continues bearing as it grows, and usually bears till late fall. Grows very tall and bears well, but does not branch to any extent. Seed crop very short last year, making the seed a little higher. Pkt. 5c; oz. 10c; ¼ lb. 30c; ½ lb. 50c; lb. 85c; 5 lbs. \$3.50; 10 lbs. \$6.50, postpaid.

WHITE VELVET. Also well known. Pods smooth and white. Not as popular as the green. Prices same as Mammoth Green.

PARSNIP

HOLLOW CROWN. Something like carrots but white in color. Fine for soups. Seed slow to come up and grows slow. Pkts. 5c and 10c.

PARSLEY

DOUBLE CURLED. Fine for soups and garnishing. If you keep parsley in a shady place it will stay green all the year. Pkts. 5c and 10c.

PUMPKINS

(Postpaid)

INDIAN PUMPKIN. A medium-sized sweet pumpkin. Fine for pies and preserves as well as stock feed. Pkt. 5c; oz. 10c; ¼ lb. 25c; lb. 65c.

GREEN-STRIPED CUSHAW. Green-striped outside with yellow meat. The large neck is solid flesh. Excellent for cooking or for stock feed. Pkt. 5c; oz. 10c; ¼ lb. 25c; lb. 75c.

CONNECTICUT FIELD. A good field variety, to plant for table use as well as stock. Pkt. 5c; oz. 10c; ½ lb. 35c; lb. 65c.

BIG TOM. An extra large one. Pkt. 5c; oz. 10c.

ENGLISH PEAS

DWARF VARIETIES

(Not postpaid. Add postage)

One to two bushels per acre, according to the space left between the rows. Drill them thick enough so the plants will cling to and support each other.

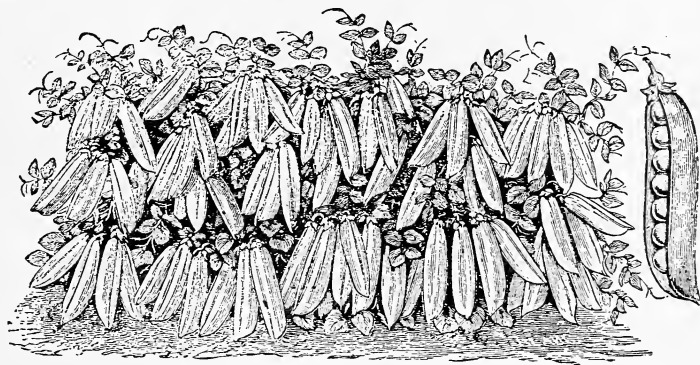

EARLY ALASKA. An old well known variety. Of dwarf growth, but early and prolific. Pods retain their green color well after ripening and being picked. Pt. 25c; qt. 50c; pk. \$3.00. Add postage.

LONG POD ALASKA. Not quite as early as the Early Alaska, but the pods are larger. One of the favorite market peas. Pt. 25c; qt. 50c; pk. \$3.00. Add postage.

THOMAS LAXTON. The best of the early wrinkled peas. Produces very large, well-filled pods, which are easily harvested and make a fine appearance in the market. First picking ready in our trial in 51 days after seed was planted. This is a dwarf pea, but grows off very fast in the form of short vines. An excellent pea for your own table, and a dandy for a truck crop. Pint 25c; qt. 50c; pk. \$3.00; bu. \$11.50; bag \$22.00, not prepaid.

LAXTONIAN. One of the finest and earliest of the large-podded dwarf peas. Will not make as much growth of plant as Thomas Laxton, but foliage and pods are a prettier, darker green. A good shipper. Pkt. 10c; pt. 25c; qt. 50c; pk. \$3.50; ½ bu. \$6.50; bu. \$12.50, not prepaid.

BLISS EVERBEARING. As the name implies, this is a continuous bearer and for this reason is a good one for early fall planting. The plants are very much like McNeil, being dark green and stocky, vigorous growers. Large pods. A fine shipper, and a good one for the table; however, it is considerably slower to bear than Thomas Laxton. In our trials the Thomas Laxton gets through bearing by the time Bliss starts blooming. Pkt. 10c; pt. 25c; qt. 45c; pk. \$3.00; bu. \$10.00, not prepaid.

McNeil Peas

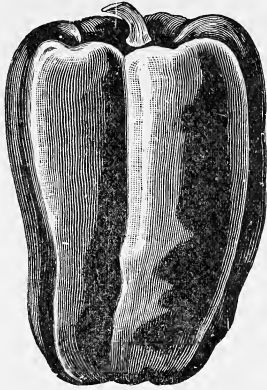

McNEIL. This pea takes about 3½ months from planting time to get the first picking of green peas. The pods are small, but the vines are rank, stocky growers and produce pods very thick on the vines. Fifteen to twenty pounds of seed is enough for an acre, drilled in rows 3 feet apart. Personally we do not care much for these peas, as they are not as sweet as the other English Peas; however, we have been told that a little sugar added to them when cooking makes them as good as the others. Very resistant to cold, often surviving cold that kills other varieties. ½ pt. 25c; pt. 45c; qt. 85c; 4 qts. \$3.25; 8 qts. \$6.00; ½ bu. \$11.00, not prepaid.

PEPPERS

(Postpaid)

RUBY GIANT. A cross between Ruby King and Chinese Giant. Large pods a little blunter ended than Ruby King; thick meat. The most popular market variety. Pkt. 5c; oz. 35c; lb. \$3.00; 5 lbs. at \$2.50.

WORLDBEATER. Said to also be a cross between Chinese Giant and Ruby King. A nice-shaped thick-meated pepper. Fine for the garden and for shipping. Some growers plant this in preference to the others but the general opinion is that this and Ruby Giant are the same. Pkt. 10c; oz. 35c; $\frac{1}{4}$ lb. 90c; lb. \$3.00.

Ruby King

ROYAL KING. This is a pepper that is working its way amongst the planters. Not quite so long as Ruby King, but a splendid thick-meated pepper. Pkt. 5c; oz. 35c; lb. \$3.25.

RUBY KING. Our strain of this well-known sweet pepper comes from one of the oldest and most reliable growers in America and is first-class in every respect. Pkt. 5c; oz. 35c; $\frac{1}{4}$ lb. 90c; lb. \$3.00; 5 lbs. at \$2.50.

PIMENTO. A large smooth pepper used for canning after ripening, but liked by some as a green pepper. Heart-shaped. Pkts. 5c and 10c; oz. 40c.

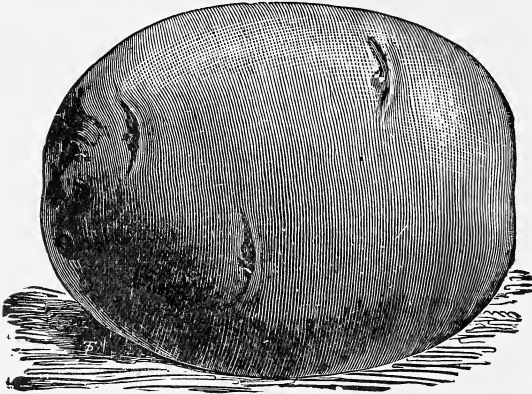

MIXED HOT PEPPERS. If you want something "red hot", this is the one. Pkt. 5c; oz. 40c.

POTATOES (Irish)

(Not prepaid)

Takes about 10 bushels to plant an acre.

RED BLISS or BLISS TRIUMPH. Most popular potato for home gardens and local markets; do not plant it to ship north. Our seed is the very best. Write for special prices when ready to plant, as they may be lower.

Red Bliss or Bliss Triumph

SPAULDING ROSE No. 4. One of the leading white potatoes; not planted generally in this section except where they are to be shipped to northern markets. Ask for prices.

Write for Special Prices on Large Quantities of Seeds, Fertilizers and Supplies.

RADISHES

(Postpaid)

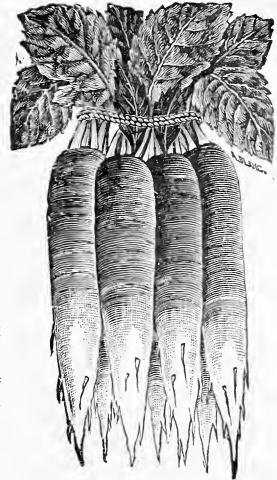

Sow about 9 lbs. per acre in drills 12 to 14 inches apart.

EARLY RED GLOBE. A fine quick-growing sort; small, round, crisp. Pkt. 5c; oz. 10c; $\frac{1}{4}$ lb. 25c; lb. 75c.

FRENCH BREAKFAST. Half long in shape; deep crimson with white tip; a well-known and favorite variety. Pkt. 5c; oz. 10c; $\frac{1}{4}$ lb. 25c.

LONG RED RADISH. Our most popular seller. For home garden or market. Pkt. 5c; oz. 10c; $\frac{1}{4}$ lb. 25c; lb. 75c.

ICICLE. A long pure white radish. Pkt. 5c; oz. 10c; $\frac{1}{4}$ lb. 25c; lb. 75c.

Long Red Radish

SALSIFY (Vegetable Oyster)

(Postpaid)

MAMMOTH SANDWICH ISLAND. This is the best variety. Grows well in the garden in Florida but requires a few months to mature. Even if the roots are small they make fine soup and it certainly tastes like oysters. Try it. Pkts. 5c and 10c.

SQUASH

(Postpaid)

Two pounds plant and replant an acre.

GIANT SUMMER CROOKNECK. Grows 15 to 20 inches long. Very prolific and continues bearing through the summer. A rich golden color and of excellent flavor. Pkt. 5c; oz. 10c; $\frac{1}{4}$ lb. 30c; lb. \$1.00.

GOLDEN SUMMER CROOKNECK. Grows 8 to 12 inches long. Attractive in appearance, uniform in quality and the finest for early market. Pkt. 5c; oz. 10c; $\frac{1}{4}$ lb. 25c; lb. 90c; 5 lbs. \$4.25.

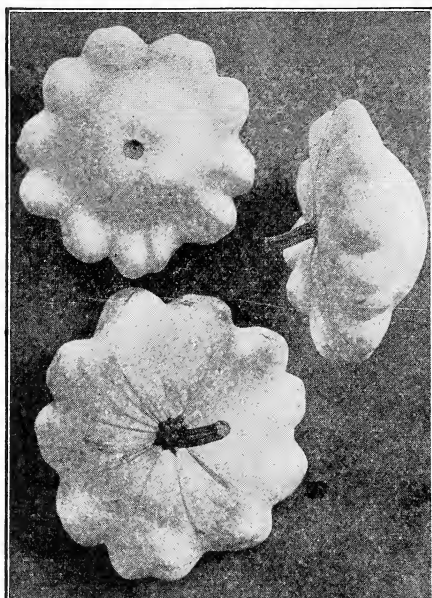

COCOZZELLI di NAPOLI. (Vegetable Marrow.) A very fine squash of the necked type, but not a crooked neck. Green-gray color with darker green stripes running lengthwise. Cook just like other squash. We have eaten them, and know they are fine. Very vigorous grower. Good shippers, and sell well in cities where there are Italians. Pkt. 5c; oz. 15c; $\frac{1}{4}$ lb. 45c; $\frac{1}{2}$ lb. 80c; lb. \$1.50.

EARLY WHITE BUSH SCALLOP. A small, well known variety, and very popular for shipping. Pkt. 5c; oz. 10c; $\frac{1}{4}$ lb. 25c; lb. 90c; 5 lbs. for \$4.25.

BOSTON MARROW. A large yellow squash; can be eaten when young the same as the bush squashes and is really better, or it may be allowed to ripen like pumpkins. Vines like pumpkins. Shipped in crates like cantaloupes and fine for market. Taking especially well on the Boston market. Pkt. 5c; oz. 10c; $\frac{1}{4}$ lb. 30c; lb. 90c.

Golden Summer Crookneck Squash

Early White Bush Scallop Squash

HUBBARD. A very fine squash on the order of the Boston Marrow except that it is very rough skinned and greenish color. Pkt. 5c; oz. 10c; $\frac{1}{4}$ lb. 35c; lb. \$1.25.

SPINACH

(Postpaid)

BLOOMSDALE SAVOY. An old standard variety. Plant in the fall and winter in Florida. Pkt. 5c; oz. 10c; $\frac{1}{4}$ lb. 20c; lb. 50c.

KING OF DENMARK. Said to be a hardier variety than Bloomsdale and stands longer in the field without seeding. Plant in the fall and winter in Florida. Pkt. 5c; oz. 15c; $\frac{1}{4}$ lb. 40c; lb. \$1.10.

NEW ZEALAND. A summer variety. Quite different in appearance from the other varieties. Plant in early spring. Pkt. 10c; oz. 20c; $\frac{1}{4}$ lb. 25c.

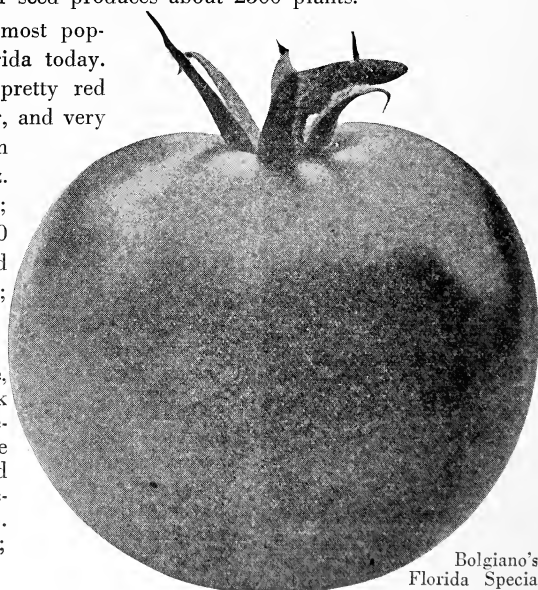

TOMATO

(Postpaid)

An ounce of seed produces about 2500 plants.

FLORIDA SPECIAL. The most popular shipping tomato in Florida today. Large, almost globe-shaped, pretty red color, firm, very heavy bearer, and very early. Our bulk seed is from the best grower. Pkt. 10c; oz. 30c; $\frac{1}{4}$ lb. \$1.00; $\frac{1}{2}$ lb. \$1.75; lb. \$3.25; 5 lbs. at \$3.00; 10 lbs. at \$2.75. Also in sealed pounds from Bolgiano at \$5.00; 10 lbs. at \$47.50.

EARLY DETROIT. A large, early-maturing, purplish-pink tomato. Smooth, nearly globe-shaped, fine quality, and one of the best shippers. Our seed is the best, from the introducers. Pkt. 10c; oz. 45c; $\frac{1}{4}$ lb. \$1.50; $\frac{1}{2}$ lb. \$2.75; lb. \$5.00; 5 lbs. at \$4.75 a lb.

Bolgiano's
Florida Special

BONNY BEST EARLY TOMATO. This tomato is early, especially hardy and the fruit rarely ever rots as is the case with many other varieties. Ripens up very red, is a good shipper and excellent for canning. Tomatoes are borne in clusters and the yield is very heavy. Pkt. 10c; oz. 25c; $\frac{1}{4}$ lb. 90c; lb. \$3.00.

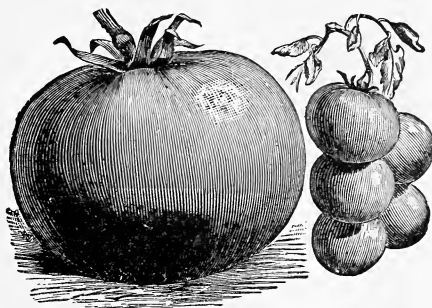

LIVINGSTON'S GLOBE. Without doubt the most popular with Florida growers; fine globe shape; productive, and bears longer than others. Pkt. 10c; oz. 30c; $\frac{1}{4}$ lb. \$1.00; lb. \$3.50.

NEW STONE. Highly recommended for canning and private gardens; fruit large, very solid and productive. Pkts. 5c and 10c; oz. 25c; $\frac{1}{4}$ lb. 75c; lb. \$2.25.

REDFIELD BEAUTY. A dark red handsomely shaped tomato that takes well. A good market or home garden variety. Pkts. 5c and 10c; oz. 25c; $\frac{1}{4}$ lb. 85c; lb. \$3.00, postpaid.

SPARK'S EARLIANA. The earliest tomato grown; deep scarlet color and borne in clusters; profitable for early market. Pkts. 5c and 10c; oz. 25c; $\frac{1}{4}$ lb. 75c; lb. \$2.25.

OTHER VARIETIES. Also have John Baer, Duke of York, Acme, Brimmer, Red Rock, Ponderosa. Pkt. 10c; oz. 30c; $\frac{1}{4}$ lb. \$1.00.

Redfield Beauty

TURNIP

(Postpaid)

EARLY FLORIDA. This will make turnips quicker than any other variety, and the quality is first class. This turnip will not produce so much top or very large roots but produces QUICK. You should try them. Pkt. 5c; oz. 10c; $\frac{1}{4}$ lb. 30c; lb. \$1.00.

Early Florida

RED TOP GLOBE. One of the finest large round turnips. One of the prettiest for bunching for market as it grows well in the ground and when washed the purplish-red color shows up well. Pkt. 5c; oz. 10c; $\frac{1}{4}$ lb. 20c; $\frac{1}{2}$ lb. 35c; lb. 60c.

PRICES ON THE FOLLOWING TURNIPS ARE: Pkt. 5c; oz. 10c; $\frac{1}{4}$ lb. 20c; $\frac{1}{2}$ lb. 35c; lb. 60c. Ask for special price on larger quantity.

EARLY WHITE EGG. Pure white, egg-shaped, medium size.

POMERANIAN WHITE GLOBE. Pure white, round, large size.

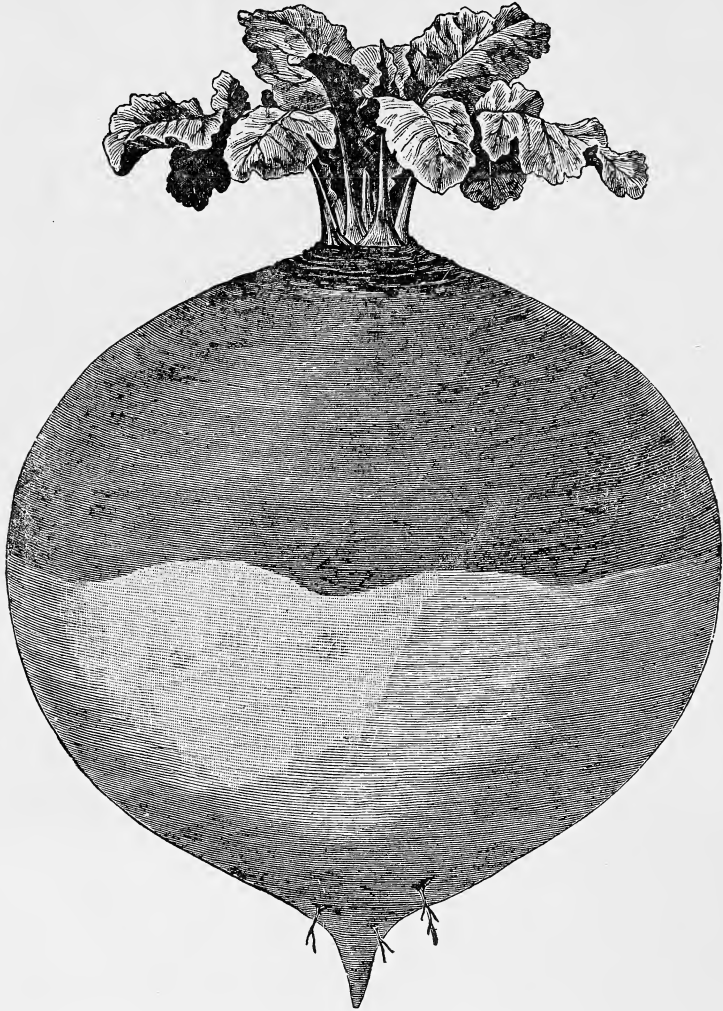

PURPLE TOP STRAP LEAF. Flat medium sized turnip.

EARLY WHITE FLAT DUTCH. Pure white, flat, large size.

LONG WHITE COWHORN. Pure white, long roots of good quality and large size.

SEVEN TOP. Especially good for tops, as several tops come out of one root.

RUTABAGA

American Purple Top Yellow

AMERICAN PURPLE TOP YELLOW. This is the most popular variety of rutabaga and has stood the test for many years. Pkt. 5c; oz. 10c; $\frac{1}{4}$ lb. 20c; $\frac{1}{2}$ lb. 35c; lb. 60c.

SWEET RUSSIAN WHITE. This is a white-fleshed Rutabaga. Not used much in Florida but those who plant it say it is very fine. Same as Yellow.

FLOWER SEEDS

(Postpaid)

We have nearly all kinds of Flower Seeds, but list only a few kinds below.

NASTURTIUM. Finest tall mixed colors. May be planted from September 1st to April 15th. Pkt. 5c; oz. 15c; 2 oz. 25c.

NASTURTIUM. Finest Dwarf mixed colors. Blooms quicker than the tall, but does not last as long. Pkt. 5c; oz. 15c; 2 oz. 25c.

NOTE. Sweet peas and pansies planted in Florida in the spring will not give satisfaction, but we catalog them for those who want to try them anyhow. They should be planted in October and November.

SWEET PEAS. Finest mixture of the old well known varieties, the kind you have always seen. Pkts. 5c and 10c; $\frac{1}{4}$ lb. 50c.

GIANT SPENCER SWEET PEAS. This is the finest sweet pea there is. The blossoms are very large and are borne on long stems. We have the finest mixed colors. Pkt. 10c; oz. 35c.

PANSY. Finest mixture. Pkt. 10c; 3 pkts. 25c.

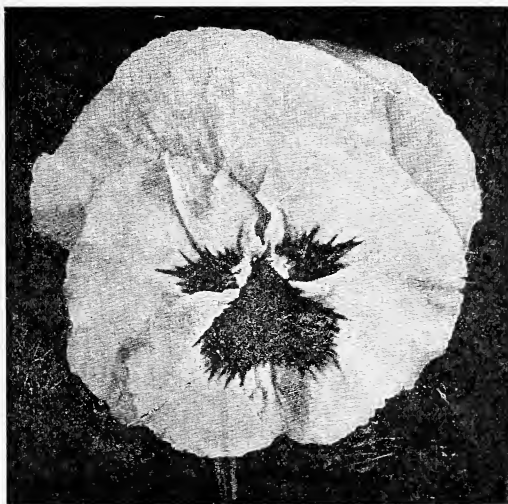

We have nearly every kind of flower seed you want. Just order whatever you want. Pkts. 5c, 10c and 15c.

BULBS

DUTCH HYACINTH. For growing in pots or in beds. Very pretty and sweet. 10c each, \$1.00 a dozen.

NARCISSUS. White Grandiflora. 10c each; 60c a dozen.

DOUBLE VON SION. (rich yellow). 10c each; \$1.10 per dozen.

Pansy

“Lawtey, Fla., Oct. 8th, 1924.

Dear Sirs:

The inclosed order was recommended by us, as the only fault we could find with the seed we received from your house a few weeks ago was, as near as we could figure, only about 6 plants to every seed came up. They were the best seed we have ever received.

B. L. BLANCHARD.”

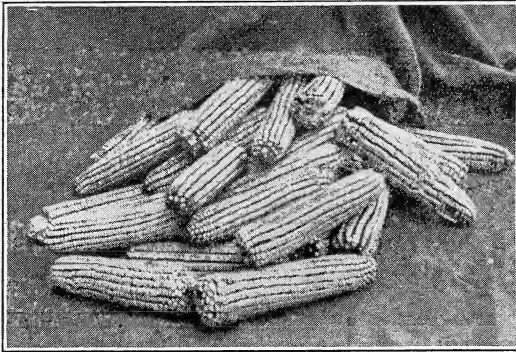

FIELD SEEDS

CORN

(Not prepaid)

Florida is fast coming into her own in corn growing. Look what the boys are doing in the Corn Clubs all over the state. A very important factor in growing corn (or any other crop for that matter) is the preparation of the land. Break it deep with a two-horse plow to begin with, and then after planting, keep the ground cultivated.

FLORIDA FLINT. Grown in Florida several years; one and two ears to the stalk. A good main crop corn; keeps well all the year round. Qt. 20c; $\frac{1}{2}$ pk. 65c; pk. \$1.25; bu. \$4.50, not prepaid.

Florida Flint

HASTINGS PROLIFIC.

This will make you a heavy yield, but is a little soft. Qt. 20c; $\frac{1}{2}$ pk. 65c; pk. \$1.10; bu. \$4.00, not prepaid.

CUBA OR JUNE CORN.

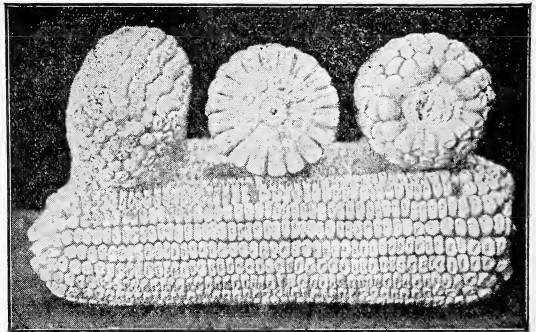

The seed of this corn is unusually scarce. This is without doubt the hardest corn in existence, but it is rich in feed value. Grains amber colored and ears slightly smaller than the Florida Flint. Qt. 25c; $\frac{1}{2}$ pk. 75c; pk. \$1.25; $\frac{1}{2}$ bu. \$2.25; bu. (56 lbs.) \$4.25, not prepaid.

GENUINE MEXICAN JUNE CORN. A soft white corn. Makes extremely large ears, two and three to the stalk; the greatest drouth resister; entirely recovering after severe dry hot spells. This corn, as well as the Cuba Corn, is valuable for planting after harvesting early spring crops, such as beans, cucumbers, Irish potatoes, etc. Qt. 25c; pk. \$1.25; bu. \$4.50, not prepaid.

WHITE BEAUTY. (90 to 100 days.) Matures quicker than Virginia White Dent by 20 days and makes large ears though stalks are smaller. Qt. 20c; pk. \$1.25; bu. \$4.00, not prepaid.

SNOWFLAKE. Another extra early white corn, and well known here. A good one. Prices same as White Beauty.

GOLDEN GLOW. (80 to 90 days.) Quicker than Golden Dent by 20 days. We have sold this for the past 3 years and it has given great satisfaction. It is that extra early western yellow corn you have been wanting. Qt. 20c; pk. \$1.25; bu. \$3.25, not prepaid.

White Beauty

GOLDEN DENT. This corn matures earlier than Florida corns and for that reason is planted quite extensively for early feeding where one has not enough corn to carry him over. It is also used for table corn. Qt. 25c; pk. \$1.25; bu. \$3.75, not prepaid.

WHITE DENT. Takes a few days longer to mature than Golden Dent. Same prices as Golden.

HICKORY KING. This is the "early corn" you always see with grains the size of a man's thumb nail, but it has a very small cob. Makes big ears, is a soft corn, and makes very good "mutton corn" or "roasting ears." Qt. 20c; pk. \$1.15; bu. \$4.25.

POP CORN. White Rice is the best variety of pop corn. Pkt. 5c; pt. 25c; qt. 40c.

CARPET GRASS

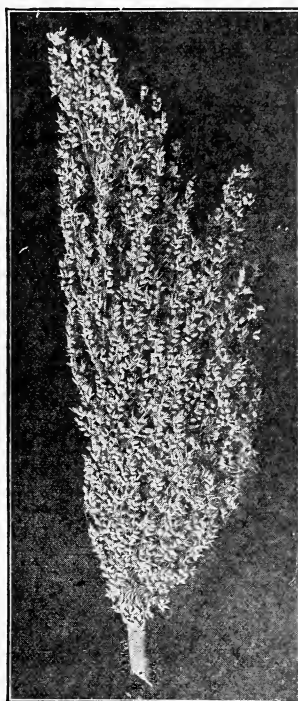

A fine pasture grass and also splendid for lawns. Grows the year around. Not a pest. Lb. 65c, postpaid.

CHICKEN CORN

A grain that is fine for poultry and stock. Grows like sorghum, and we believe will yield more grain per acre than corn. Plant as you do sorghum. When the heads are ripe cut them off just below the head, and a number of small heads will come out and mature. Pint 20c; qt. 35c, postpaid.

CROTOLARIA (Striata)

A new legume for building up land and for a summer cover crop. This crop has been tried for several seasons at the Experiment Station here, and it appears to be a very fine legume. It is strictly a land-improver, and is no good for feed as stock do not eat it, tho it is not poisonous. Nature of growth is similar to beggarweed, but it seems to be hardier and more vigorous on all kinds of soil than beggarweed. About 6 lbs. to the acre will give a good crop. Plant in the early spring and it will grow till frost kills it. Fine for orchards and groves. Recleaned seed. Lb. \$1.50; 10 lbs. \$12.50, postpaid. Ask for prices on large quantities.

Chicken Corn

BEGGARWEED

Broadcast 10 to 12 lbs. per acre.

We all know what beggarweed is; what valuable hay it makes, and what a land builder it is. If your place is not seeded with it, you should seed it this season sure. Sow re-claimed seed in June. Ask for prices.

FLORIDA UPLAND RICE

Just as fine rice is grown right here in Alachua County as can be grown anywhere. It is a long solid white grain and yields 15 to 25 bushels per acre. Does not have to be overflooded, but should be planted on the lowest land on your farm. Plant in rows twenty-two inches apart, in hills about eight inches apart, half a dozen grains to the hill. About 1½ pecks to the acre. Qt. 25c; pk. \$1.25, postpaid. Bu. \$4.00, not prepaid.

SUNFLOWER (Mammoth Russian)

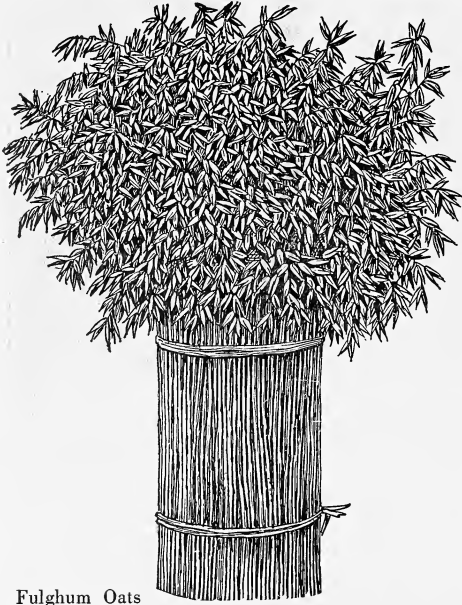

(Postpaid)

For planting and for parrots.

The best variety for the farm. Plant some for your poultry. Lb. 25c; 5 lbs. for \$1.00, postpaid.

SPRING OATS

(Not prepaid)

FULGHUM. One of the best spring oats. Very little chaff and no beard; heavy straw and heavy heads. About a hundred-day oat. Bu. \$1.75; 5-bu. bag \$8.00, not prepaid.

Fulghum Oats

90-DAY or BURT. Another favorite for spring. Pk. 40c; bu. \$1.25; 100-lb. bag \$3.25; 5 bags \$15.75, not prepaid.**RYE**

(Not prepaid)

One half bushel when sown early will seed an acre.

FLORIDA. The Florida Rye can be depended on to give satisfactory results here. No more till fall.**ABRUZZI.** This is an upright grower like the Florida Rye, but grows off a little faster and doesn't head as early in the spring as the Florida, which gives longer pasturage. No more till fall.**DWARF ESSEX RAPE**

(Not prepaid)

Five or six lbs. to the acre planted in drills; three times that quantity broadcast.

A great winter pasture crop. Crop growing looks like turnips or rutabagas, though it makes no root like a turnip. Lb. 20c; 10 lbs. at 15c; 25 lbs. for \$3.15.

SEED SOWER**CYCLONE SEED SOWER.** Straps go over the head and turn crank with right hand. Sows as fast as you can walk, and puts out the grain more evenly than by hand. Sows broadcast only. Pays for itself in a little while. Price \$2.50, postpaid.

COWPEAS

(Not prepaid)

INOCULATE THIS
SEED WITH
MULFORD CULTURE

Whippoorwill, Clay, Wonderful (or Unknown), Little Yellow Two-crop, Brabham, Iron, Taylor and Black Crowder. These are the leading field varieties. Ask for prices.

Large early Black Eye, Two-crop Conch, and Large Yellow Crowder. Especially fine table peas. Ask for prices.

VELVET BEANS

INOCULATE THIS
SEED WITH
MULFORD CULTURE

100-DAY SPECKLE. (Also known as 90-day and Early Speckle.) Very well known and extensively planted, having taken the place for a number of years of the old time Late Velvets. Ask for prices.

NEW BUNCH VELVET. Like the 100-day Bean, this is a product of Georgia. A real bunch bean and is especially valuable for planting in corn because it does not climb on the corn and break it down. Ask for prices.

OLD TIME LATE FLORIDA SPECKLED. Almost extinct, but we have some engaged for this spring. Ask for price.

SORGHUM

(Not prepaid)

Planted in drills, a peck of seed is sufficient for an acre. Sorghum probably furnishes the greatest yield of green or cured feed of all crops, and is much relished by stock.

This picture shows part of a 15-acre field of feed sorghum planted near Gainesville on July 25th. It was nearly ready to cut for feed on October 8th when picture was taken. Planted this late it does not stool out as much as when planted in the spring, but you can see from the picture that it produced a wonderful crop, and it was on just fair grade land without fertilizer of any kind.

EARLY AMBER. (Black seed.) Has a spreading head. Matures quicker than any other. Prices fluctuate. Qt. 15c, not prepaid. Ask for prices on larger quantity.

RED TOP. (Red seed.) Has a compact head. Qt. 20c, not prepaid. Ask for prices on larger quantity.

ORANGE. (Large orange colored seed.) Not so popular as the other two varieties. Very much like the Red Top. Qt. 20c, prepaid. Ask for prices on larger quantity.

GIANT SYRUP. An extra large Sorghum used for syrup, forage and grain. Let the heads ripen before making syrup as the stalks are sweeter and it gives you a good grain crop also. Qt. 25c; 4 qts. 90c; pk. \$1.50.

MILLET

PEARL OR CAT TAIL. This is planted early for green feed, and may be cut over and over again, as it grows right out after cutting. Lb. 25c; 5 or 10 lbs. at 20c, prepaid.

GERMAN. We have only the Tennessee German Millet, which is the best for the South. Makes a heavy yield of the finest hay. About a bushel to the acre sown broadcast; some use less, according to the strength of the land. Ask for prices.

CHUFAS

(Not prepaid)

Plant in drills, 1½ pk. per acre.

Do not compare our Chufas with those right off the farm. Ours have had the light seed floated out re-cleaned. Order early as the supply is seldom sufficient for the whole season. Price \$3.50 per bushel of 44 lbs. up to Feb. 10th; after that date ask for prices.

PEANUTS

(Not prepaid)

1½ bu., unshelled, required for an acre

SPANISH. A small 2-crop peanut. Vines grow upright and the peanuts are borne in a cluster right around the root, making it a very easy peanut to harvest. Ask for prices.

IMPROVED SPANISH, OR VALENCIA. This is, without a doubt, the sweetest peanut grown; it is almost as nice to eat raw as a pecan. Its habit of growth is upright like the small Spanish. Ask for prices.

FLORIDA RUNNER. A very heavy yielder and a dependable crop in Florida. Pk. 50c; bu. \$1.25, not prepaid.

GOOBERS

In growth the goober is much like the peanut, except that the pods contain but one nut or pea and bush grows up more like snap beans. The goober is a very heavy yielder and a good fattener for hogs, but is not so sweet and soft as the peanut and therefore not relished so much. Qt. 25c; pk. \$1.00, postpaid.

"What and When to Plant in Florida" on page 1 should be referred to

SEED INOCULATION

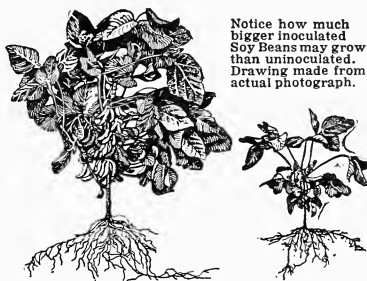

Increase Your Crops—Improve Your Soil

MULFORD CULTURES. Legumes offer the best known means of maintaining soil fertility and rejuvenating over-cropped and worn-out fields. They add both humus and nitrogen to your soil and thus increase your yield of wheat, cotton, corn and other non-legume crops.

The U. S. Department of Agriculture and many State Agricultural Experiment Stations recommend inoculation of legumes with nitrogen-fixing bacteria to induce a prompt "catch" and increase your yield.

Mulford Cultures are scientifically prepared and tested by experts, in the biological laboratories of H. K. Mulford Co., Philadelphia, U. S. A., with the same degree of care as Mulford Antitoxins, Serums, Vaccines, etc., which are standard all over the world.

Always specify on your order what crop you want to inoculate, as there is a different strain of bacteria for each legume. Directions on each bottle. Easy to apply. Not a poison in any way. 5-acre size \$5.00; 1-acre size \$1.50; 1/4-acre size 75c, postpaid. Small size (supplied only in four varieties, for Garden Peas, Garden Beans, Lima Beans and Sweet Peas) 35c, postpaid.

IMPLEMENTS

The Cole Planters, Drills and Distributors are manufactured and guaranteed by The Cole Manufacturing Co. They are the best one-horse implements made. Write us for Cole catalog.

COLE PLAIN VIEW PLANTER NO. 11. This planter presents the most wonderful improvements in seed planters. As you walk behind the planter you can actually see the grains approach the dropping hole and drop. Price \$22.50, not prepaid.

COLE PLAIN VIEW PLANTER NO. 15. This is the double hopper planter, the best in the land. Price, \$26.50, not prepaid.

COLE UNIVERSAL GUANO DISTRIBUTOR No. 20. The old reliable wooden hopper distributor. Very substantial and always gives satisfaction. Operates by chain drive and force feed, as shown in cut. Price \$8.50, not prepaid.

NO. 4 PLANET JR. HILL AND DRILL SEEDER, WHEEL HOE, CULTIVATOR AND PLOW

This garden implement sows all garden seeds, and in addition to this the seeder may be quickly taken off and any of the tools put on so that you can plow, open furrows, cover them, hoe or cultivate. Price complete \$21.00, not prepaid.

PLANET JR. GARDEN PLOW AND CULTIVATOR NO. 19

This has turn plow, sweep, bull tongue, 5-tooth rake cultivator and wrench. 15-inch wheel. Price \$6.75, not prepaid.

SPRAYING MATERIALS, ETC.

Better crops can be made by spraying or dusting.

BLUE STONE (for making up Bordo Mixture). Lb. 10c; 10 lbs. 90c; 50 lbs. for \$4.25; 100 lbs. \$8.00.

ROCK LIME. (unslacked), for making Bordo Mixture. Ask for prices.

Note—If you want the best results, buy the Blue Stone and lime and make fresh Bordo Mixture.

Vermorel Sprayer

40% NICOTINE. For killing lice of all kinds on plants. 1 oz. bottles 35c; 1/2-lb. cans \$1.25; 2-lb. cans \$3.50, not prepaid. (Not mailable.)

ARSENATE OF LEAD (dry powdered). One pound to 50 gallons water kills most eating insects. May be put on dry by mixing with lime. Lb. 50c (not mailable). Not prepaid. Ask for price on large quantities.

VERMOREL SPRAYER. One of the best one-man sprayers you can get; efficient, easy to operate, and fits the back so that it is not so tiresome. Made of brass throughout. Price \$20.00, postpaid.

LE SANS RIVAL. This sprayer is very much like the Vermorel in appearance, but has several features which make it easily worth more. Made of copper. Price \$25.00, prepaid.

Auto Spray No. 9

AUTO SPRAY No. 9. For all kinds of general spraying. Holds 3 1/2 gallons, has strap to go over shoulder, 2 feet high. Has spring shut-off nozzle. With brass tank \$9.50, postpaid; galvanized tank \$6.50, postpaid. 2-ft. extension rod and elbow to get upturned spray, \$1.00 extra.

SMALL COMPRESSED AIR SPRAYER. For all kinds of liquid. Fine for spraying small trees, shrubs, also hen houses, stock, etc. Continuous pressure. Each \$1.15, postpaid.

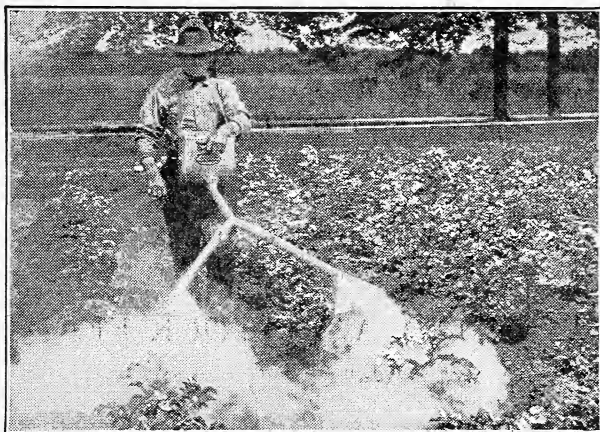

Small Compressed Air Sprayer

“What and When to Plant in Florida” on page 1 should be referred to when making your order.

WHEN YOU THINK OF SEED THINK OF SEMINOLE SEED CO.

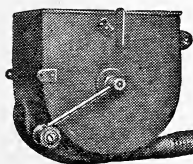

DUST AND DUSTING MACHINES

Dusting has proven very satisfactory in this section this spring. It can be applied much faster with much less work and trouble than wet mixtures. Dust probably gets to every part of the plant more thoroughly than wet spray.

NIAGARA BLOWER DUST GUN

(Not postpaid)

Niagara Blower Dust Gun

This improved type of hand-duster embodies many of the patented features of the larger Niagara models, including an improved feed device. Its mechanical construction is very simple and durable. It is suspended by straps from the shoulders. The fan is rotated by means of a crank. This gun is designed for low growing crops such as the potato, strawberry, tomato, celery, cucumber, beans, etc., and also is adapted

for dusting trees in young groves, etc. The weight is nearly 11 pounds and its capacity for dust material is about 9 pounds, or enough for one-third to one-half acre at one filling. A flexible metal hose section permits free direction of dust mixture. Price \$25.00. Add 20c if wanted by mail.

Ask your neighbor about our seed. He probably uses them.

SMALL PLUNGER DUST GUNS. This is for use on home gardens or plots of less than an acre. Price \$3.00. (Add 15c for postage.)

VERMOREL DOUBLE ACTION DUSTER. One of the best one-man dusters. Straps on the back like the Vermorel Sprayer. Price \$20.00, postpaid.

We can supply dust mixtures for any purpose, but the two most used are:

A-1 MIXTURE (nicotine dust), for lice and other small sucking insects. Price: 25-lb. drum, \$5.25 (not mailable); not prepaid.

D-6 MIXTURE (bluestone and lime), for blight and other fungus diseases. Price: 1-lb. 20c; 10 lbs. \$1.50; 100-lb. drum \$10.00 (not mailable); not prepaid.

LE SANS RIVAL. A splendid duster. Double-action. Price \$25.00, prepaid.

POULTRY AND STOCK FEED

Poultry and stock must be taken care of or it will be a failure. There are opportunities in the poultry business here for one who will go at it right. The class of feed we handle is not to be compared to the cheap trashy feeds found on the market.

We can supply Scratch Feed, Buttermilk Egg Mash, Baby Chick Scratch, Buttermilk Starting Feed for baby chicks, Buttermilk Growing Mash for growing chicks and Intermediate size Scratch for growing chicks.

Also have Wheat, Alfalfa Meal, Pulverized Charcoal, Meat Scraps, Crushed Oyster Shell, Grit, Bran, Shorts, Middlings, Beet Pulp, Oats, Cotton Seed Meal, Corn Feed Meal, Corn, ready-mixed Dairy Feed and other feeds. ASK FOR QUOTATIONS ON FEEDS.

POULTRY AND STOCK TONICS AND REMEDIES

All our remedies are absolutely guaranteed to give you satisfaction, or money cheerfully refunded.

Here are a few which we carry in stock.

Roup Remedy, Sorehead Remedy, Lice Powder, Poultry Tonic, Stock Powders, Worm Remedy, etc. 30c and 55c pkgs., postpaid.

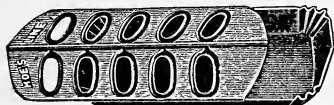

LIME NEST EGGS

These are wonderful for nest eggs. Don't wear out or break. Appearance and weight about the same as a hen egg. Dozen 60c, postpaid.

LEG BANDS. Champion Adjustable (numbered), made of aluminum, and colored key ring bands made of celluloid. 15c a doz.; 75c per 100, postpaid.

STAR JAR FOUNTAIN. Fits screw top jars. Made of good material that does not rust out. Each 15c; 2 for 25c; 10 for \$1.10. Add postage.

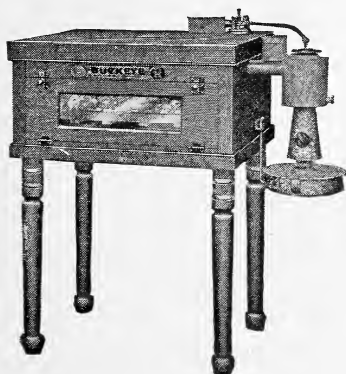

FEED TROUGH. For Baby chicks. Made of good galvanized metal. 10-inch, each 25c; 20-inch, each 40c. Add 10c extra for postage.

INCUBATORS AND BROODERS

Incubators and Brooders are no longer an experiment. Think of the many thousands of them in successful operation.

No. 16, 110-Egg Incubator

BUCKEYE No. 14, STYLE E. Capacity 65 hen eggs. Price \$16.50. No. 16, 110 eggs, \$27.50. No. 17, \$36.75, prepaid by freight.

BUCKEYE BLUE FLAME BROODERS

200 chick size (34 inches across).....	\$17.50
350 chick size (42 inches across).....	20.00
500 chick size (52 inches across).....	22.50

OAKES INCUBATOR. This is a round metal incubator; light weight, and a good one. Satisfaction guaranteed. 60-egg size \$13.00; 100-egg \$18.00.

OAKES ELECTRIC INCUBATOR. Electrics are the easiest of all to operate as it turns off the heat itself if it gets too hot and back on again when it cools down. After hatching you can remove top from incubator, slip in legs and hang curtain around it (these come with it) and use as a brooder. 60-egg \$21.00; 100-egg \$30.00, prepaid by freight.

OAKES BROODERS (oil). 50-egg \$6.50; 100-egg \$10.00, prepaid by freight.

FERTILIZERS

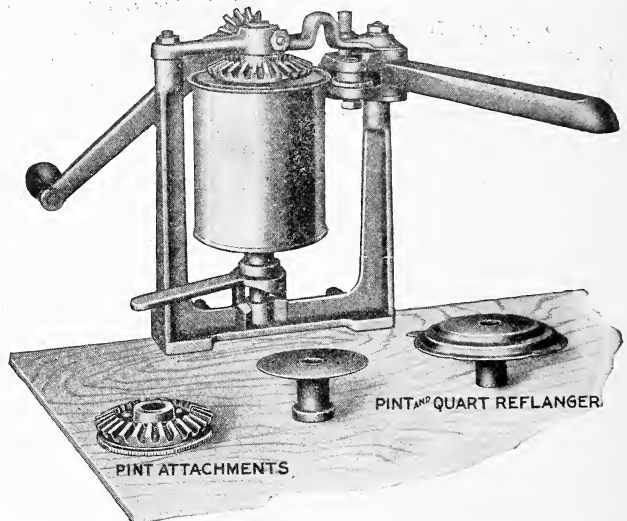

We are agents for high grade fertilizers and can give you a close price. We carry stocks at our stores in Gainesville and Ocala. Tell us what you want to fertilize and we will give you a price. All kinds of complete fertilizers.

Also handle Nitrate of Soda, Kainit, Cotton Seed Meal, Sheep Manure and others.

Virginia Can Sealer

\$21.00

POSTPAID

BE THRIFTY—BE PROGRESSIVE. DO YOUR CANNING AT HOME WITH
A VIRGINIA CAN SEALER

Seals, Opens, Re-Flanges and Re-Seals Both Pint and Quart Tin Cans
(Without Solder or Acid)

Can also supply the pint and quart cans for this machine. Write for prices when the canning season comes on.

SEMINOLE EARLY BEAN

(Look this up on page 2)

SORGHUM

This is a crop every farmer should plant. Easy to grow, requires but little work, and makes lots of feed—grain and green feed. See page 25.
